ADHESIVE

Solvent Based

Solvent Bazlı Yapıştırıcıların Avantajları ve Kullanım Alanları

Solvent bazlı yapıştırıcılar, yüksek mukavemetleri ve dayanıklılıkları nedeniyle birçok uygulama için tercih edilen bir seçenektir. Bu yapıştırıcıların sunduğu avantajlar, geniş bir kullanım alanına sahip olmalarını sağlar. Öncelikle, yüksek yapışma gücü ve hızlı kuruma süreleri sayesinde üretim süreçlerini hızlandırır ve verimliliği artırır. Bu özellikler, özellikle otomotiv, elektronik ve inşaat gibi zamanın kritik olduğu sektörlerde büyük avantaj sağlar.

Advantages and Usage Areas of Solvent Based Adhesives

Solvent-based adhesives are a preferred choice for many applications due to their high strength and durability. The advantages offered by these adhesives make them usable in a wide range. First of all, they accelerate production processes and increase efficiency thanks to their high bond strength and fast drying times. These features provide a great advantage, especially in time-critical sectors such as automotive, electronics and construction.

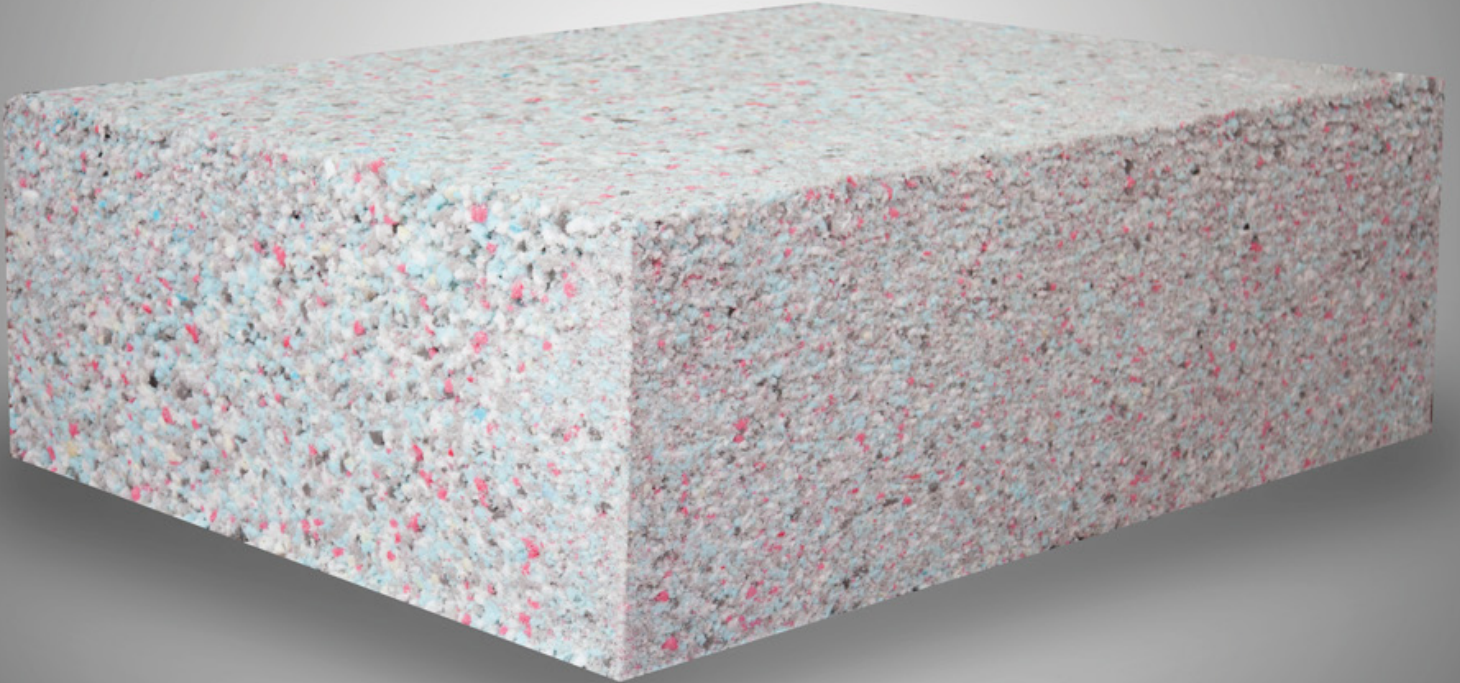

BONDEX SÜNGER

Rebonded Foam

50 ila 200 dansite arası yoğunluklarda olan bu ürün yüksek dansitenin getirdiği özellik sayesinde ısı, ses yalıtımı ve otomotiv sektörü gibi birçok alanda tercih edilmektedir. Bunun yanında bondexin, sünger atıklarının yeniden değerlendirilmesiyle üretilmesi onu çevre dostu bir ürün kılmaktadır.

This product, available in densities ranging from 50 to 200, is preferred in many areas such as thermal and sound insulation and the automotive sector, thanks to the properties provided by its high density. In addition, the fact that Bondex is produced by recycling foam waste makes it an environmentally friendly product.

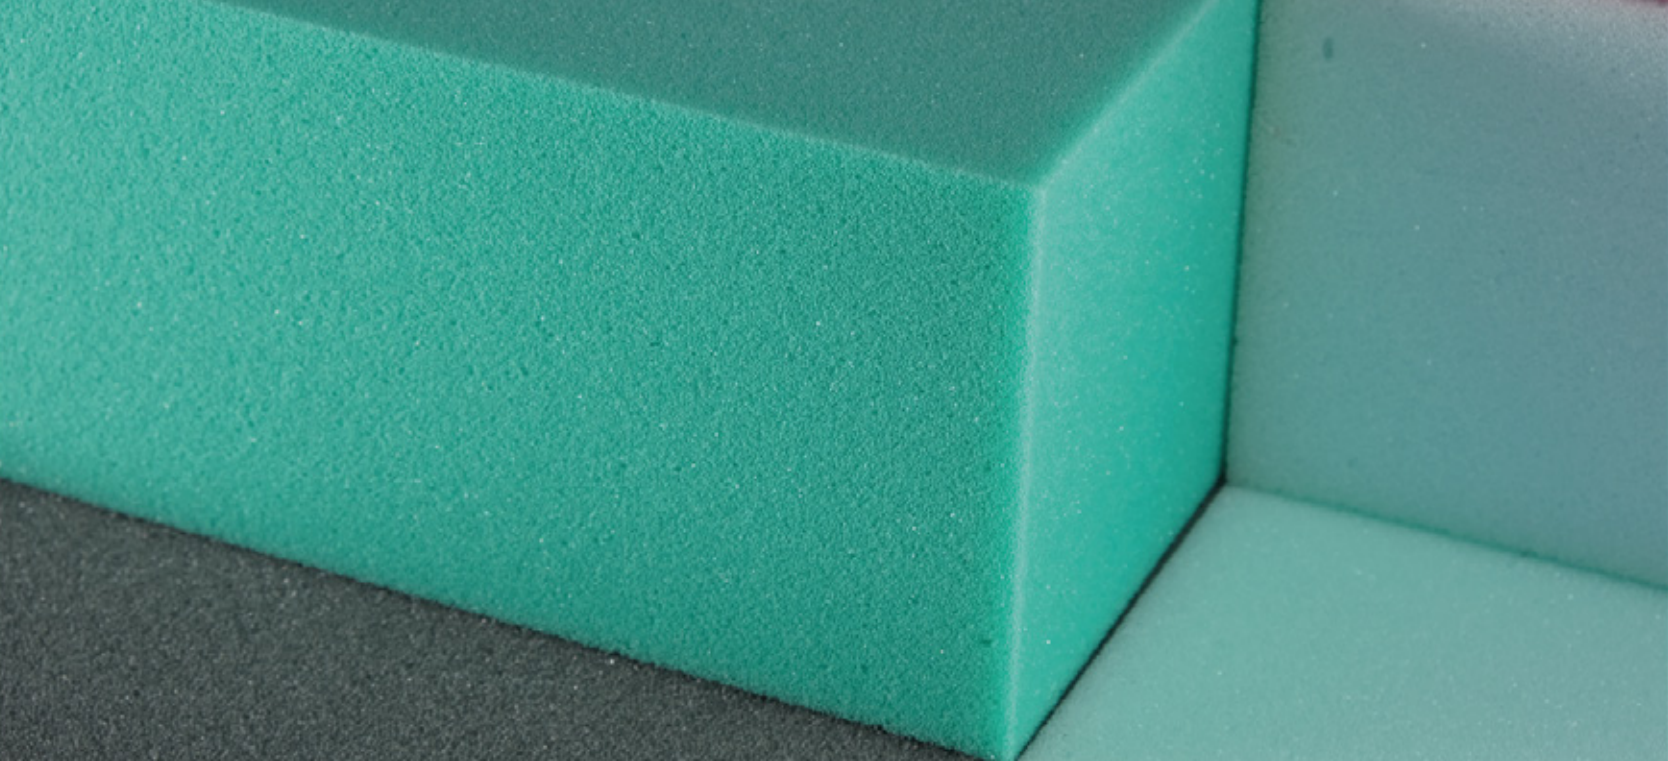

SÜNGER

Foam

14 ila 32 dansite arası yoğunluklarda ve istenilen sertliklerde olan bu ürün yatak,koltuk ve otomotiv sektörü gibi birçok alanda tercih edilmektedir.

This product, available in densities ranging from 14 to 32 and in the desired firmness levels, is preferred in many areas such as the mattress, furniture, and automotive industries.
